Assemble paper squares to create pixilated Ralph!

YOU WILL NEED: Black 11” x 17” construction paper, multiple colors of 8.5” x 11” pieces of construction paper, ruler, scissors.

DIRECTIONS: Cut out each sheet of the colored construction paper that you collected into 1” squares. Put them aside. Lay an 11” x 17” piece of black construction paper flat on a table. Then begin placing your colored construction paper squares on the black construction paper. Use the number chart above to identify each color. Beginning at the middle point, work your way to the outside edge by placing the squares flush, next to the last. As you are placing the colored squares, add a dot of glue and secure into place. When you have completed the image, let dry.

TRY THIS ACTIVITY with felt or porcelain bathroom tiles, painted to tone!

COLORS: Collect a sheet of 8.5” x 11” construction paper for each of the colors below to make your Wreck-It Ralph 8-bit paper craft!
Create cool *Wreck-It Ralph* 8-bit style stencils to use on shirts, book covers and more! Print the stencils on the following pages »

NOW AVAILABLE ON HD DIGITAL & ON BLU-RAY™ COMBO PACK

MARCH 5
RAD 8-BIT STENCIL
RALPH

DIRECTIONS
Have an adult help you cut out all the black areas of the stencil using a craft precision knife. Save the positive and negative pieces. Prepare an area to work on your t-shirt in a well ventilated room or outdoors. Protect your work area by laying down newspaper.

Pre-design your stencil by laying it on top a piece of newspaper. Place the stencil pieces on top of the newspaper. Use non-toxic spray paint to spray the positive and negative pieces to create your design. When you are happy with your design, lay your t-shirt flat on top of the protected work area, and paint it according to your design! Let dry.
